PRIYA PATEL

Computer Science Undergraduate | Software Development & Applied AI

Ahmedabad, Gujarat, India | patelpriya17151@gmail.com

LinkedIn | GitHub | Portfolio

PROFESSIONAL SUMMARY

A determined and curious Computer Science undergraduate with the audacity to keep pursuing goals despite challenges. Passionate about exploring diverse fields of technology, learning independently, and building the skills to turn ideas into reality. I believe that broad knowledge across disciplines, combined with continuous learning, can be just as valuable as deep expertise in one area. Whatever I take on, I strive to complete it to a high standard, paying attention to even the smallest details.

TECHNICAL SKILLS

Programming Languages: C, C++, Python, Java

Web Development: HTML, CSS

Databases: MySQL, MongoDB

Developer Tools: Git, GitHub, VS Code, Google Colab, Antigravity

Design & Prototyping: Canva, Framer

Currently Learning: Data Structures and Algorithms, AI/ML, Retrieval-Augmented Generation (RAG)

SELECTED PROJECTS

VayuSatya — Hyperlocal Pollution Evidence Engine | GitHub · Live Demo

- Contributed to a pollution-monitoring platform that detects air-quality surges, correlates wind data with potential pollution sources, and generates pre-filled GSPCB complaint PDFs.
  Tech Stack: Python, Flask, Flask-CORS, Pandas, NumPy, Scikit-learn, HTML5, CSS, JavaScript, Chart.js, ReportLab, OpenWeatherMap API

SatQuery AI — Multimodal Satellite Image Analysis | GitHub · Live Demo · Demo Video

- Contributed to a vision-language assistant that interprets natural-language queries to analyze satellite imagery, detect temporal changes, perform visual question answering, and combine optical and SAR data.
  Tech Stack: PyTorch, Hugging Face Transformers, Qwen3.5-2B, Qwen2.5-VL-3B, PEFT/LoRA, custom dual-branch fusion CNN, Python 3.10, Flask, Sentinel-1 SAR, Sentinel-2 MSI, GeoTIFF, JavaScript ES6+, GSAP

Personal Resume Website — UI/UX Showcase | Live Portfolio · GitHub

- Designed and developed a personal résumé website to showcase technical skills, projects, and experience, emphasizing visual hierarchy, interaction, and user experience.
  Tech Stack: Languages & Web: JavaScript (ES6+), HTML5, CSS3, Python; Frameworks & Libraries: React, Three.js, WebGL, Web Audio API

INTERNSHIP EXPERIENCE

Google Student Ambassador | Karnavati University | 2026

- Facilitated a Google Gemini event at college.

Brand Ambassador | Rao Consultant

- Represented the organization in a brand ambassador role.

Event & Program Operations Intern | School to Startup

- Supported event-related and program operations.

ACHIEVEMENTS & ACTIVITIES

Robotic Arm Design: Designed a robotic arm using SolidWorks as a first-semester academic project.

Hackathons: Shortlisted in online rounds of 10+ hackathons, including competitions with 3,000+ participants.

Continuous Learning: Completed 10+ online learning courses, including LinkedIn Learning courses.

EDUCATION

B.Tech in Computer Science and Engineering | Karnavati University, Gujarat, India

Expected Graduation: 2029
